*The price is \$10 (Students \$5)*

**Program: "The Chemistry of Love; Loving What  
You Do and Doing What you Love"**

**Ruth Woodall, ACS Volunteer**

### Comments from the Chair

Happy New Year to all members of the Kentucky Lake Section! We are looking forward to an exciting year of section activities. This January we will welcome Ruth Woodall as our speaker on the topic the love of Chemistry. We are also trying new venues for our meetings, to better accommodate the Science Center Activities.

Please urge members with children to take advantage of this innovative opportunity to participate in Section activities. We are looking forward to the dedication of the National Chemistry Historical Landmark ceremony in May. See you in the Park on the 27<sup>th</sup>.

~David Wing, Chair

## "The Chemistry of Love; Loving What You Do and Doing What you Love"

### Abstract:

There are certain things that happen to your brain, to your behavior, and to your thought patterns when you fall in love. One can fall in love with a person, place, idea, or thing. Attend to see which one I will be talking about. This talk is very interactive and entertaining and will help you understand why I am an ACS member/volunteer. "Loving What I do".
